### Ingredients with Therapeutic Impact.

**Vitamin C and Zinc** - Supplementation of both ingredients can help with the common cold and wintertime immune system challenges<sup>†</sup>

**Astragalus** - Boosts immune cells, leading to effective production of antibodies<sup>†</sup>

**EpiCor** - Yeast, acts as an antioxidant, supports healthy immune response during cold, flus, and pollen season. Increases natural killer cells as well<sup>†</sup>

**Olive Leaf extract**- Antimicrobial actions to support healthy inflammatory response, reduces the effectivity and replication by interacting with the protein of a virus, weakening viral actions<sup>†</sup>

**Berberine HCL**- Supports healthy inflammatory response and maintains immunity when exposed to allergens. Promotes lung health and has ability to weaken bacteria with biofilms while protecting against antimicrobial substances found in bacteria<sup>†</sup>

**N-Acetyl-L-Cysteine (NAC)**- Antioxidant used to provide support to lungs & Respiratory tract with its ability to break up mucus and clear respiratory passages, especially during cold and flu season<sup>†</sup>

**Garlic** - Boosts immunity when consumed regularly, stimulates immune cells: macrophages, lymphocytes, natural killer cells, dendritic cells, and eosinophils<sup>†</sup>

**Citrus Bioflavonoid Complex** - Promote healthy immune health, works synergistically with Vitamin C<sup>†</sup>
